Professional Summary

UI/UX Designer with hands-on experience designing intuitive, engaging, and visually appealing digital experiences for web and mobile applications. Skilled in translating user needs into wireframes, user flows, mockups, interactive prototypes, and high-fidelity UI designs using Figma. Comfortable collaborating with developers, product managers, and stakeholders throughout the design process, conducting basic user research and usability testing, and ensuring design consistency across products. Working knowledge of HTML5, CSS3, and Tailwind CSS to support smooth design-to-development handoff. Computer Science and Engineering graduate with a strong analytical and problem-solving foundation.

Core Strengths

- User-centered UI/UX design for web and mobile applications, with emphasis on usability and accessibility
- Wireframing, user flows, mockups, interactive prototyping, and design system creation
- Strong visual design skills: typography, color theory, layout, and interaction design
- Basic user research and usability testing to improve user experience
- Design-to-code workflow using HTML, CSS, Tailwind CSS, and Flutter

Technical Skills

Design Tools: Figma (Wireframing, Prototyping, Design Systems, Component Libraries), Canva

UX Process: User-Centered Design, User Flows, Information Architecture, Wireframing, Interactive Prototyping, Usability Testing

Visual & Interaction Design: Typography, Color Theory, Layout & Visual Hierarchy, Responsive Design, Accessibility Basics

Front-End: HTML5, CSS3, JavaScript, Tailwind CSS, Flutter

Collaboration & Tools: Developer Handoff, GitHub, Firebase, VS Code, Android Studio

Experience

UI/UX Designer – IT firm

Feb 2026 – Present

- Designed mobile app, website, and dashboard interfaces with a focus on usability, visual consistency, and responsive layouts.
- Created wireframes, user flows, prototypes, and high-fidelity UI screens in Figma for real-world digital products.
- Collaborated on feedback-driven design iterations and improved user journeys through structured interaction design.
- Worked on design systems, reusable components, and developer-friendly handoff for implementation.

Case Studies

MediCare – Medical Service Platform (Mobile App, Website & Admin Dashboard)

Behance

Healthcare platform covering appointment booking, service requests, report uploads, and patient management. Designed the patient app, website, and admin dashboard with streamlined healthcare workflows.

Rithos – Mental Wellness & Mood Tracking App

Behance

Mental wellness app featuring mood tracking, journaling, AI insights, breathing exercises, and self-care tools. Designed intuitive and privacy-focused wellness experiences.

GoSNKR – Location-Based Sneaker Marketplace (Mobile App + Admin Dashboard)

Behance

Sneaker marketplace focused on product discovery, reseller sourcing, and store management. Designed buyer, reseller, store, and admin workflows for the platform.

Chronomus – Intelligent Learning Platform (Mobile App)

Behance

E-learning platform focused on task management, chapter reviews, and exam preparation. Designed a streamlined student dashboard and learning experience.

Projects

GoSNKR – Sneaker Marketplace (App + Admin Dashboard)	Design	Prototype
Sneaker commerce platform focused on product discovery, local inventory, size-based filtering, purchasing, and pickup flows. Designed store, reseller, and admin workflows with a scalable UI system.		
Vehicle Transfer & Fleet Operations Platform	Design	Prototype
Vehicle transfer platform covering customer requests, driver assignments, quotations, inspections, pickup and delivery, and damage reporting. Designed customer, driver, and admin workflows.		
Beauty Services Marketplace (Mobile App + Admin Dashboard)	Design	Prototype
Beauty services marketplace focused on artist discovery, bookings, payments, reviews, and verification. Designed customer, artist, and admin experiences with scalable management workflows.		
HouseHops (Mobile App + Admin Dashboard)	Design	Prototype
Military-focused relocation platform helping service members and families find verified housing, connect with landlords, and access nearby resources. Designed multi-role mobile experiences and admin workflows for properties, verification, installations, and relocation services.		
Four Elements Electric (Mobile App + Admin Dashboard)	Design	Prototype
Electrical service platform covering quote requests, troubleshooting, safety guidance, trusted partners, and service management. Designed a clean and customer-focused experience.		
Currently Study Management Platform (Mobile App + Admin Dashboard)	Design	Prototype
Focus and study management platform covering classroom assignments, AI/manual study planning, session tracking, and progress insights. Designed a clear, productivity-focused mobile experience.		
Cura Explore Contactless Car Rental (Mobile App + Admin Dashboard)	Design	Prototype
Contactless car rental platform featuring vehicle booking, secure payments, self check-in, digital contracts, Bluetooth vehicle access, damage inspection, GPS tracking, and rental management. Designed a premium, seamless experience connecting customers with a fully digital rental journey.		
Testora – E-Learning Platform (App + Website + Admin Dashboard)	Design	Prototype
E-learning and exam preparation platform featuring quizzes, mock exams, rankings, subscriptions, and progress tracking. Designed a scalable system across mobile, web, and admin experiences.		
MediCare (Mobile App + Website + Admin Dashboard)	Design	Prototype
Healthcare platform covering doctor consultations, hospital directory, prescription uploads, medical services, and patient management. Designed connected experiences across mobile, web, and admin workflows.		
Care360 – Healthcare Super App (Mobile App + Admin Dashboard)	Design	Prototype
Healthcare super app covering doctor appointments, emergency support, ambulance tracking, AI prescription scanning, pharmacy ordering, reminders, health records, and secure payments.		
Rithos – Mental Wellness & Mood Tracking App	Design	Prototype
Mental wellness platform focused on mood tracking, journaling, AI insights, guided self-care, and supportive wellness experiences. Designed mobile and admin interfaces with privacy-focused flows.		

Education

Daffodil International University	2022 – 2025
B.Sc in Computer Science and Engineering	CGPA: 3.21

Extra-Curricular Activities

- Sports Secretary, DIU Blood Donation Club
- Executive Member, Computer Programming Club (CPC)

Languages

Bangla (Native) English (Fluent) Hindi (Conversational)
